## AC/R + DRY R

Super Seal™ is an industry leading system safe sealant. Super Seal™ is a system additive that will find and seal leaks in refrigeration systems and also has an eliminator to dry any moisture in the system preventing acid/waxing, it dissolves blockages and frees TEV's.

Super Seal is a light, low viscosity particle free liquid that is directly placed into the system as a mist - as it travels through the system it locates the leak site - this forms a low tensile crystalline structure that creates a permanent seal.

### Features

- Polymer free
- Works significantly quicker than other sealants saving time
- Compatible with all oils and refrigerants
- Does not block compressor valves, TEV's, cap tubes or orifices
- Creates a solid crystalline permanent seal
- Travels with the refrigerant gas and does not mix with the oil
- No tools required - vacuum packed can, uses system pressure to inject the product into the system
- Unique misting orifice avoids liquid slugging
- Works with systems that have low oil content and oil traps
- Fast acting
- Cost effective - saves time and money
- Ongoing protection against future leaks
